PROFILE

Product Designer with 4+ years of experience designing complex B2B digital products from discovery to delivery. Experienced in transforming research, user behaviour, business goals, and technical constraints into scalable digital experiences through information architecture, accessibility, design systems, and product thinking.

Comfortable working in ambiguous environments, collaborating with multidisciplinary teams, and driving product decisions through evidence-based design.

SELECTED IMPACT

- Redesigned the information architecture of a complex educational platform after analysing **600+ behavioural sessions** and conducting **31 user interviews**.
- Established the foundations of a scalable design system, improving consistency across products and supporting long-term product evolution.
- Embedded accessibility into product workflows through WCAG audits, screen reader testing, reusable design patterns, and cross-functional documentation.
- Collaborated with Product, Engineering, Editorial, Legal, Commercial, and UK stakeholders to deliver complex cross-functional initiatives.
- Reduced implementation ambiguity through structured documentation, implementation guidelines, and developer handoff.

INDUSTRIES

- B2B SaaS
 - EdTech
 - Accessibility & Inclusive Design
 - AI-assisted Products
 - Enterprise Platforms
 - Design Systems
-

CORE SKILLS

Product

- Product Design
- Product Discovery
- UX Strategy
- Product Thinking
- User Research
- Information Architecture
- Interaction Design
- Prototyping

Systems

- Design Systems
- Accessibility (WCAG)
- Responsive Design
- UX Documentation
- Developer Handoff

Collaboration

- Stakeholder Management
 - Cross-functional Collaboration
 - Behavioural Analysis
 - Usability Testing
 - AI-assisted Design Workflows
-

TOOLS

Figma • FigJam • Maze • Hotjar • Jira • Zeroheight • Adobe Creative Suite • Copilot • LLMs

PROFESSIONAL EXPERIENCE

Oxford University Press

UX/UI Designer

Jan 2023 – Oct 2025 | Madrid, Spain

Led end-to-end product design initiatives across Oxford Premium, redesigning complex educational experiences through research, accessibility, information architecture, and scalable design systems.

Key achievements

- Influenced product strategy by analysing **600+ Hotjar sessions** and synthesising insights from **31 teacher interviews**, uncovering behavioural patterns that guided product decisions.
 - Redesigned the platform's information architecture, simplifying how thousands of educational resources were organised and improving discoverability through research-driven navigation.
 - Established the foundations of a scalable design system, introducing reusable components, responsive behaviours, accessibility standards, and implementation guidelines across multiple products.
 - Embedded accessibility into product workflows through WCAG audits, screen reader testing (NVDA, JAWS, Microsoft Narrator), reusable design patterns, and cross-functional documentation.
 - Collaborated with Product, Engineering, Editorial, Legal, Commercial, and Oxford UK teams to align user needs with business and technical objectives.
 - Produced UX documentation, implementation guidelines, and developer handoffs, improving collaboration between design and engineering.
 - Structured UX workflows and documentation supporting AI-assisted educational experiences using Copilot and LLM technologies.
-

Plytix

UX Designer

Jul 2022 – Sep 2022 | Málaga, Spain

Supported SaaS product development by improving workflows, UX documentation, and collaboration between Product and Engineering.

Key achievements

- Improved product workflows through behavioural analysis and user-centred design.
 - Collaborated with Product Managers and engineers to refine user stories and interaction flows.
 - Maintained design system documentation using Zeroheight.
 - Improved interface consistency through scalable UX patterns and documentation.
-

Freelance UX/UI Designer

Jan 2021 – May 2022

Designed digital products, websites, branding systems, and editorial publications for educational institutions, NGOs, startups, and independent clients.

Highlights

- Delivered end-to-end digital projects from discovery through implementation.
 - Designed responsive websites balancing user needs, business goals, and technical feasibility.
 - Developed branding systems and editorial publications.
 - Collaborated directly with developers throughout implementation.
-

Product Designer Intern

Sheedo

Mar 2020 – Jul 2020

- Contributed to research and development for sustainable product innovation.
 - Participated in branding, packaging design, and product development.
 - Conducted feasibility studies supporting new product concepts.
-

EDUCATION

Bachelor's Degree in Product Design

UDIT – University of Design, Innovation and Technology

2017 – 2021

Relevant coursework

- User-Centred Design
- Ergonomics & Accessibility
- Interactive Design
- Entrepreneurship
- Robotics
- Communication & Marketing

Bachelor Thesis

Designed a modular protective helmet for children with Sensory Processing Disorder (SPD), combining accessibility, modularity, and user-centred product design to improve comfort while reducing sensory overload.

Advanced Techniques & Tools for Social Science Research

Universidad Rey Juan Carlos

2019 – 2020

Specialisation in:

- User Research
 - Usability Testing
 - Qualitative Research
 - Behaviour Analysis
 - Accessibility Evaluation
 - Heuristic Evaluation
-

Master in Interior Design

IED Madrid

2016 – 2017

Interior Design Technician (DEC)

Collège LaSalle Morocco

2013 – 2016

Diploma of Excellence

CERTIFICATIONS

Interaction Design Foundation

- User Research – Methods & Best Practices
 - Accessibility: How to Design for All
 - Journey Mapping
 - Emotional Design
 - Design for the 21st Century with Don Norman
