EXPERIENCE

UX/UI

JAN 2023 - OCT 2025 / OUPE

- Sole UX/UI Designer, owning projects from research and problem definition through design, testing, documentation and implementation.
- Conducted 31 user interviews and analysed 600+ behavioural sessions, alongside market, competitive and desk research depending on project needs.
- Redesigned complex information architecture, navigation and responsive flows across educational platforms.
- Built and evolved scalable design systems and embedded WCAG 2.1 accessibility through audits, testing and reusable patterns.
- Created UX documentation, guidelines and presentations tailored to different teams, helping establish stronger UX/UI practices and culture internally.
- Worked cross-functionally with Product, Engineering, Editorial, Legal, Commercial and UK stakeholders. Member of Oxford's Diversity & Inclusion team.

UX

JUL 2022 - OCT 2022 / PLYTIX

- Joined as the first and sole UX Designer, helping establish the UX function from scratch.
- Managed user stories in Shortcut, translating product requirements into UX flows and design solutions.
- Conducted user behaviour evaluations and interaction reviews to identify friction and usability issues.
- Proposed and designed usability improvements across complex B2B SaaS workflows.
- Collaborated closely with Product and Engineering throughout the design process.
- Contributed to the design system and its documentation in Zeroheight, improving consistency and supporting more scalable design practices.

COURSES

Interaction Design Foundation

- User Research: Methods & Best Practices
- Accessibility: How to Design for All
- Journey Mapping
- Emotional Design
- Design for the 21st Century with Don Norman

ADDITIONAL SKILLS & INTERESTS

- Painting & illustration
- Visual arts & creative practice
- Classical violin
- Social theatre & facilitation
- Ericksonian meditation & yoga
- Videogames, D&D & LARP

Freelance UX/UI

FEB 2021 - MAY 2022 / DESIGN PROJECTS

- Managed projects independently from client discovery and requirements through design, feedback and delivery.
- Designed responsive websites and digital experiences, collaborating with developers through implementation.
- Created branding, visual identities and communication systems for educational organisations, NGOs and independent clients.
- Produced editorial, digital and campaign assets, adapting visual communication to different audiences and contexts.
- Combined UX/UI, visual design and branding depending on each project's needs and scope.
