PROFILE

Product Designer with 4+ years of experience across B2B SaaS and EdTech, designing digital products from discovery to delivery. Strong background in research, complex information architecture, accessible interaction design and scalable design systems, working closely with Product and Engineering.

PROFESSIONAL EXPERIENCE

Oxford University Press

UX/UI Designer

Jan 2023 – Oct 2025 | Madrid, Spain

Sole UX/UI Designer across Oxford Premium and related educational products, owning UX from research and problem definition through design, validation and implementation.

- **Research & product strategy:** Led multiple research rounds using interviews, usability testing, behavioural analytics, competitive analysis and desk research to identify problems and guide product decisions.
- **Educational research:** Researched learning contexts, child development and accessibility to translate educational needs into product considerations.
- **Information architecture:** Reorganised large libraries of educational resources to improve navigation, search and content discovery.
- **Interaction & UI design:** Designed responsive user flows, wireframes and high-fidelity prototypes across desktop, tablet and mobile.
- **Design systems:** Built scalable foundations across products through reusable components, tokens, responsive behaviours and implementation guidance.
- **Accessibility & inclusion:** Embedded WCAG 2.1 A/AA through audits, accessible patterns and testing with NVDA, JAWS and Narrator; also contributed to Oxford's Diversity & Inclusion team.
- **Validation:** Tested and iterated product decisions through interviews, usability testing, behavioural data and prototype validation.

- **UX documentation & culture:** Created practical UX, research and accessibility documentation for Product, Engineering, Editorial and other teams.
- **UX advocacy:** Increased UX visibility through presentations, knowledge sharing and resources that made user-centred practices more actionable across teams.
- **Cross-functional delivery:** Partnered with Product, Engineering, Editorial, Legal, Commercial, leadership and Oxford UK from early definition through implementation.
- **Ways of working:** Introduced clearer UX workflows, developer handoffs and cross-functional practices to improve scope and delivery visibility.
- **AI-assisted products:** Supported AI-assisted educational experiences through UX research, workflow design, prompt structuring and development guidance.

Plytix

UX Designer | B2B SaaS

Jul 2022 – Sep 2022 | Málaga, Spain

First and sole UX Designer within a B2B Product Information Management (PIM) platform.

- **UX processes:** Introduced user-centred workflows and UX documentation into the product process.
- **Product UX:** Identified usability issues across complex interfaces and workflows through product, user and requirements analysis.
- **Product & Engineering:** Translated user stories and requirements into interaction flows and UX solutions with PMs and engineers.
- **Design systems:** Maintained and expanded Zeroheight documentation to improve consistency across reusable components and patterns.
- **Product development:** Worked with Productboard and Shortcut within product planning, prioritisation and delivery.
- **UX advocacy:** Strengthened collaboration between Product and Engineering and increased UX visibility across the organisation.

Independent Design Projects

UX/UI & Visual Designer

Jan 2021 – May 2022 | Spain

Independent design work for educational organisations, NGOs, startups and individual clients, including digital projects developed in collaboration with a developer.

- **UX/UI & web:** Designed responsive websites from requirements and early concepts through UI and implementation with a developer.
- **Branding:** Created visual identities and communication systems for different organisations and audiences.
- **Communication design:** Produced editorial, digital and campaign assets, including social-impact projects.
- **Project ownership:** Managed client projects from requirements and scope definition through design and delivery.

- **Multidisciplinary design:** Combined UX/UI, branding and visual communication according to each project's needs.

SKILLS & TOOLS

Product & UX: Product Design · Discovery · UX Strategy · User Research · Information Architecture · Interaction Design · User Flows · Prototyping · Usability Testing · Behavioural Analysis · Competitive Research

Systems & Delivery: Design Systems · Design Tokens · Responsive Design · Accessibility (WCAG) · UX Documentation · Developer Handoff · UX QA · Cross-functional Collaboration · Stakeholder Management

Tools: Figma · FigJam · Maze · Hotjar · Contentsquare · Jira · Zeroheight · Productboard · Shortcut · Adobe Creative Suite · GitHub · Copilot · LLMs

EDUCATION

Master's Degree in Methodology of Behavioural and Health Sciences — UNED / UCM / UAM | 2026–Present

Quantitative and qualitative research, statistics, Python, survey research, machine learning and advanced research design.

Bachelor's Degree in Product Design — UDIT | 2017–2021

User-centred design, interaction design, accessibility, ergonomics and technical product development.

Advanced Techniques & Tools for Social Science Research — Universidad Rey Juan Carlos | 2019–2020

Master in Interior Design — IED Madrid | 2016–2017

Interior Design Technician (DEC) — Collège LaSalle Morocco | 2013–2016 · Diploma of Excellence

CERTIFICATIONS

Interaction Design Foundation: User Research · Accessibility · Journey Mapping · Emotional Design · Design for the 21st Century with Don Norman
